DETAILED ACTION

Election/Restriction

1. Claim 1 is generic to a plurality of disclosed patentably distinct species comprising a material including at least one compound selected from the group consisting of the formulas 1-V.. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Election of one of the groups I, II, III, IV, or V should be made.

In applicant's response on paper No.10, page 12, paragraphs 2-5, and page 13, lines 1-5,

Applicant admits that groups of the formulas I-III are distinct to groups of formulas IV and V.

Therefore, the restriction of species is proper.
